

Saturday Injury Clinics

August 24 – November 16, 2024

8:30-10:30 am

Each Saturday, beginning August 24 and concluding on November 16, fellowship-trained sports medicine physicians will be available to see acute injuries sustained by area student-athletes on a first come, first serve basis.

- Please bring personal insurance information and social security number with the student-athlete. Personal insurance will be filed with co-pays due the day of the appointment.
- If the student-athlete has no private insurance, a cash pay option is available for the office visit and paperwork for filing with secondary/athletic insurance will be provided for payment reimbursement upon request at the end of the appointment.
- Imaging and bracing services are available.
- Same-day MRI may be scheduled dependent upon insurance guidelines.
- If an athlete is unable to attend the Saturday Clinic, please call to schedule for a Monday appointment.
- Additional questions, contact Steven Ramirez at 281-725-5333.
